

# 2nd Lecture of GLOSS & The 3rd Public Lecture of Kyushu University IMI Short-term Joint Research Project (Pursuit Of Mechanism of Slope Failures and Slope Disaster Countermeasures with Reduced Environmental Load)

Organized By:  
Global Society for Smart Geo-Sustainnovation (GLOSS) &  
Institute of Mathematics for Industry (IMI), Kyushu University

GLOSS

## Date

January 21, 2022  
14:40 ~ 17:00 (Friday)

## Venue

Medium Meeting  
Room, 9th Floor,  
JR Hakata City,  
1-1 Hakata Station  
Chuo-gai, Hakata,  
Fukuoka 812-0012,  
Japan

## Contact

**GLOSS Secretariat**  
Graduate School of  
Engineering, Kyushu  
University

(Ms. Murayama )

## Program

- MC : Dr. Masanori Murai  
(Director, GLOSS/ Senior Engineer, Shimizu Corporation)
- 14:40 ~ 14:50 Opening Remarks: Prof. Hemanta Hazarika  
(President, GLOSS/ Graduate School of Engineering,  
Kyushu University)
- 14:50 ~ 15:45 Lecture 1  
Speaker: Prof. Ikuo Towhata  
(Professor Emeritus, University of Tokyo)  
**Topic:** *Behavior of Human Community Undergoing  
Rainfall-induced Sediment Disasters – Part I.*
- 15:45 ~ 15:55 Break
- 15:55 ~ 16:50 Lecture 2  
Speaker: Prof. Ikuo Towhata  
(Professor Emeritus, University of Tokyo)  
**Topic:** *Behavior of Human Community Undergoing  
Rainfall-induced Sediment Disasters – Part II.*
- 16:50 ~ 16:55 Closing Comments: Prof. Yasuhide Fukumoto  
(Director, GLOSS/ Institute of Mathematics for Industry,  
Kyushu University)
- 16:55 ~ 17:00 Concluding Remarks: Dr. Yoshifumi Kochi  
(Vice President, GLOSS/ President, K's Lab Inc.)

**The lecture will be delivered in Japanese**

## Registration Link

<https://forms.gle/sfAX3QWcQr3EMpY46>

## Lecture Format

Hybrid (face-to-face: 30 participants; online: 300 participants)  
Zoom meeting link will be sent to registered participants in due  
time.
